# BPCL lines up \$18 bn for oil, green energy infra

REUTERS  
New Delhi, 28.Aug.2023

**BPCL Chairman G Krishnamoorthy**  
said the firm will invest ₹1 trillion till 2040 for projects including green hydrogen, carbon capture, utilisation, and storage (CCUS) and on improving energy efficiency to cut emissions.

₹8.16 billion) in the next five years which will enable BPCL to create long-term value for its stakeholders while preserving our planet for future generations," Krishnamoorthy told us at its 30th annual shareholders meeting.

The company has set a planned capex outlay of around ₹1.5 trillion

He did not specify how much would be spent on core oil business versus clean fuel projects.

Krishnamoorthy, however, said BPCL would invest ₹1 trillion between now and 2040 for projects including green hydrogen, carbon capture, utilisation, and storage (CCUS) and on improving energy efficiency to cut emissions. The company hopes to own 1 gigawatt of renewable energy capacity by 2030, he said.

It will invest ₹1.01 crore to set up 50 Megawatts of captive wind power plants for its 240,000 barrels per day (bpd) Mumbai refinery and Bina refinery in central India. BPCL is building a ₹49,000 crore ethylene cracker at the 150,000 barrels per day (bpd) Bina refinery to raise the share of petrochemicals in its business by 8 per cent. It is also expanding Bina refinery's capacity to 230,000 bpd. In addition, BPCL may add a Polypropylene project to its 30,000 bpd Kochi refinery.

## Chennai firm promises 'CO<sub>2</sub> to ethanol' tech

Ramcharan may offer fuel-grade ethanol for ₹35 a litre

SHINE JACOB  
Chennai, 29 August

Even as India aims to achieve a 30 per cent blend of petrol with ethanol by 2025, the price of ethanol could become a concern for oil-marketing companies (OMCs). If the claims made by Chennai-headquartered firm Ramcharan Company are to be believed, the company's technology for converting carbon dioxide (CO<sub>2</sub>) into ethanol could produce fuel-grade ethanol for ₹35 per litre.

The company has already forged a partnership with Nithil Gadkari, co-founder and managing director of MANAS Agro Industries & Infrastructure to convert various effluents into energy and value-added products

fuel-grade ethanol suitable for fuel blending. Ramcharan is also in talks with companies like the public sector coal major Neyveli Lignite and players in the power, steel, and cement sectors, among others, to share this technology.

"We are likely the only company worldwide with a patent for such technology, which can produce fuel-grade ethanol for ₹35 per litre. This is in comparison to prices of ₹90-110 per litre for ethanol from petrochemicals," said Kaushik Hecha, owner of Ramcharan.

This is in comparison to establishing a CO<sub>2</sub>-to-fuel plant at MANAS' location in Nagpur. It employs a patented micro-reactor to convert var-

## Log9 flags production hit on delayed visas

Log9 Materials, India's first lithium-ion battery manufacturer, warned production at its facility in Bengaluru could take a hit from the late arrival of Chinese parts as Indian government regulations "will force Chinese engineers not to arrive on time, then our cell line production will get impacted," Log9's co-founder and director, Pariksh Sharma, told Reuters. "We don't know by how much, but it can practically destabilise the production."

Log9 depends on engineers from China to set up imported machinery and upgrade existing ones at its facility.

## SoftBank plans AI tour for founders

SoftBank Group Corp will take a group of its Indian startup founders to Silicon Valley next month for an artificial intelligence tour as the Japanese investor steps up efforts to infuse its portfolio companies with the technology. The investor is helping portfolio companies adjust AI and has been setting up meetings for the founders to connect with leading experts in the field, said Sumner James, managing partner overseeing Europe, Middle East, Africa and India investments at SoftBank's Vision Fund, in an interview in Mumbai. BLOOMBERG

## 'M&As may make sharp comeback in second half'

DEV CHATTERJEE  
Mumbai, 29 August

Mergers and acquisitions (M&As) in India are expected to pick up momentum as seen over the last three-four years, despite a slowdown in the first seven months of the calendar year.

"M&As is a lumpy business activity, and we may suddenly see large deals taking place during the next two quarters of the calendar year," said S. Ramesh, managing director (MD) and chief executive officer (CEO), Kotak Investment Banking. "This would help maintain the streak of strong M&A activity." This sustainable trajectory is driven by the increasing interest by private equities (PEs), who are investing billions of dollars to acquire local companies. They would be implementing best global practices in the acquired companies, thus increasing their value over time," said Ramesh.

Overall, healthcare, financial services, energy and manufacturing are some of the themes playing out in the broader M&A space, said S. Ramesh, managing director (MD) and chief executive officer (CEO), Kotak Investment Banking.

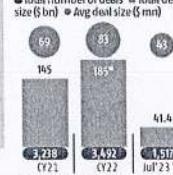

Healthcare and financial services are some of the themes playing out in the M&A space, said S. Ramesh, MD & CEO, Kotak Investment Banking.

Healthcare and financial services are some of the themes playing out in the M&A space, said S. Ramesh, MD & CEO, Kotak Investment Banking.

An ecosystem dominated by promoter-driven companies," he said.

Ramesh said the value of current investments by both foreign portfolio investors (FPIs) and PE would be around \$800-900 billion. Of this, \$250-300 billion would be invested by

### M&A DEAL TREND

Pix and the remaining by portfolio investors. "I see that proportion changing drastically. Over the next five years, the proportion of PE capital to lead to a larger number of companies, which are professionally managed, backed by either PEs or institutional investors. This is in contrast to

corporates, overseas strategic investors and financial institutions. These are recent trends," he said.

He added, "Corporates have started to look at M&As as some other big deals so far. "Primary markets may have been subdued in the initial months of 2023 but have shown an uptick in the recent past. We are optimistic that we are working on an early build-up in secondary markets, which is likely to continue. This could help clear a large part of the initial public offering pipeline—both current and new," added Ramesh.

## JJC gets time till Sept-end to pay Jet lenders ₹350 cr dues

The National Company Law Tribunal (NCLT) gave Jet Airways a chance to pay its debts.

Payment was due on August 31 but JJC sought an extension. NCLT had earlier instructed JJC to file an application, stating the revised schedule of the payment. Senior advocate Ravishankar Prasad, who appeared for JJC in earlier hearings, had told the tribunal that the consortium would deposit ₹100 crore by August 31 and another ₹100 crore by September 30. The case is

likely to come up again on September 30.

Payment was due on August 31 but JJC sought an extension. NCLT had earlier instructed JJC to file an application, stating the revised schedule of the payment. Senior advocate Ravishankar Prasad, who appeared for JJC in earlier hearings, had told the tribunal that the consortium would deposit ₹100 crore by August 31 and another ₹100 crore by the end of September.
